DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of group IV in Paper No. 7 is acknowledged.
2. Claims 1-11 and 38-51 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 7.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 13-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims provide alternative language which makes it difficult to determine the scope of the claim. Applicant should consider amending the claims to remove this language, and adding further dependent claims which positively present the alternatives. Further, Claim 15 recites the limitation "the thermoplastic resin" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 12-37 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by James et al, 6,069,080. Please refer to column 10, lines 2-31 and lines 59 through column 11, lines 6, and lines 30-39.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other similar methods or products are cited of interest.
